Enjoy Wine Without Committing To The Entire Bottle.

*The Coravin Wine System uses transformational technology, that allows you our guests, to access, pour, sample and enjoy our favorite higher end wines, **without removing the cork**. The wine is extracted through a surgical-type, ultra-thin needle, that penetrates the cork, while not compromising its integrity. As the wine is extracted, argon gas is injected into the newly created space, from a canister found in the handle of the Coravin apparatus.*
